ABOUT US

Interactivv is a full-service creative agency that specialises in a wide range of animation services. Interactive Studio was established in UAE in August 2014 under the name Invent Media LLC. We have completed over 500+ projects for many clients around the world. We are a team of talented individuals who love to create innovative and realistic animated films for commercial release. Interactivv Studio is established with the sole purpose of creating high-quality Interactive Animation, Architectural Animation & Photography Services.

Making interactive Animation becomes our passion. Since we began Architectural Animation, 3D Rendering & Photography over half a decade ago, we have evolved as an advanced animation studio. We work closely with our clients to ensure executions are flawless from concept to completion. We pride ourselves on delivering high-quality results that are highly rewarding for companies of all sizes.

INTERACTIVE VIDEO DEVELOPMENT

SAFETY TRAINING VIDEOS

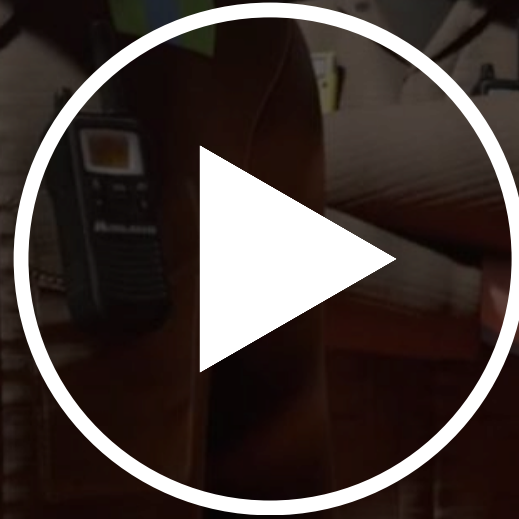

Using visual medium for education provokes better learning, as it evokes two most important organs of human anatomy simultaneously, i.e. eyes and ears. Hence, information is retained easily and for a longer duration.

BENEFITS OF ANIMATED VIDEOS IN HSE

- ✔ Presents a true-to-life situation that learners face every day.
- ✔ Imparts consistent information in every session.
- ✔ Can hold the audiences' attention by portraying emotional touches to generate emotional response.
- ✔ Addresses multi-lingual needs to cover audiences of various regions & nationalities.
- ✔ Easy to grasp and register even for non-literate/local workforce because of AUDIO-VISUAL presentation.
- ✔ Ideal for demonstrating processes which are impossible to observe in reality.

3D PRODUCT ANIMATION

Elevate Your Engineering Products with Compelling Animation Explainer Videos. Ignite your product's potential and communicate complex ideas with clarity and impact. Leverage our expertly crafted animation explainer videos to showcase your engineering marvels and drive success!

BENEFITS OF PRODUCT EXPLAINER VIDEOS

- ✔ **Captures attention:** Animation can help grab the viewer's attention and keep them engaged with the content.
- ✔ **Simplifies complex information:** Animation can be an effective tool for explaining complex concepts or processes in a way that is easy to understand.
- ✔ **Builds brand awareness:** Animation can be an effective tool for building brand awareness and recognition.
- ✔ **Increases engagement:** Animation videos are often more engaging than static images or text-based content.
- ✔ **Improves conversion rates:** Animation can help businesses convert more leads into customers.

WEBSITE DEVELOPMENT

YOUR VISION, OUR CODE

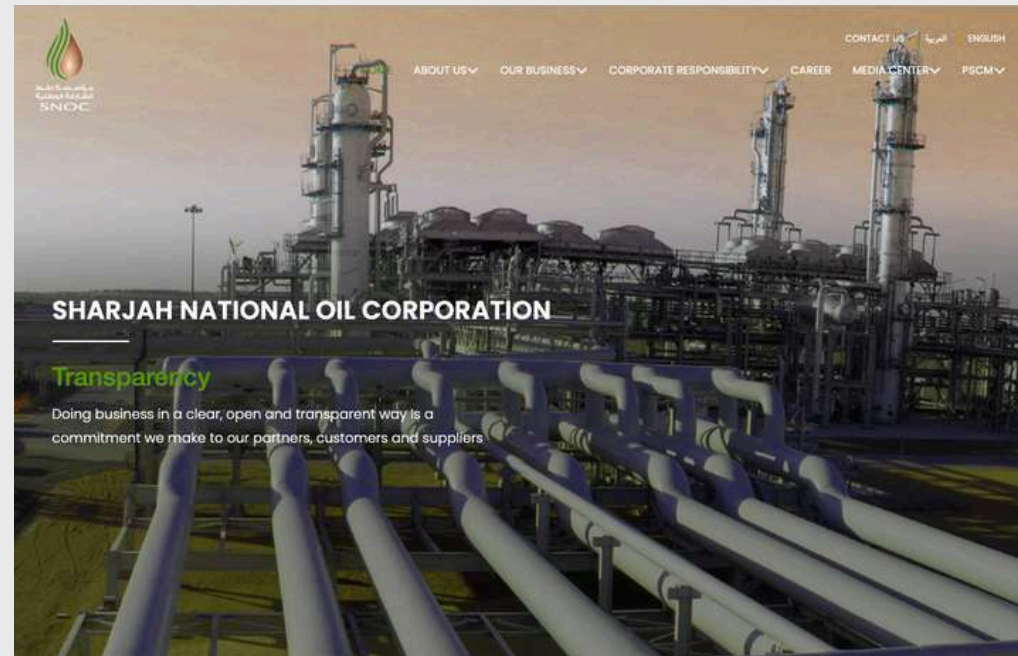

At Interactivv Studios, we specialize in creating modern, responsive websites that align with your brand's vision and business goals. Our team of expert developers and designers works closely with you to build user-friendly, visually appealing websites that enhance customer engagement and improve functionality.

SOME OF OUR DEVELOPMENTS

www.snoc.ae

ABOUT SNOC
 Sharjah National Oil Corporation (SNOC) is Sharjah's most reliable energy provider and one of the leading natural gas, condensate and LPG producers in the United Arab Emirates. They have three gas condensate fields, large Gas processing plant at Soqaya, that connected and deliver gas to the Northern Emirates for the past 35 years as well two export terminals located at Hamriyah. Sharjah National Oil Corporation (SNOC), established in 2010, is a relatively young organization, but it carries within it more than 40 years of heritage and experience in the oil and gas business devolving from the previous holders of the Concession. Most recently, SNOC initiated a globally recognized LNG import project, as well as signing a 30-year partnership deal with IN for three concessions to explore and develop onshore oil and gas fields in the emirate.

DESIGN AND INSTALLATION

Installation of new equipment and modification of systems can introduce electrical safety risks and increase the likelihood of power failure unless undertaken correctly.

MAINTENANCE AND INSPECTION

Electrical equipment must be regularly maintained to ensure it remains safe.

HEAVY/CRITICAL LIFTING PLAN

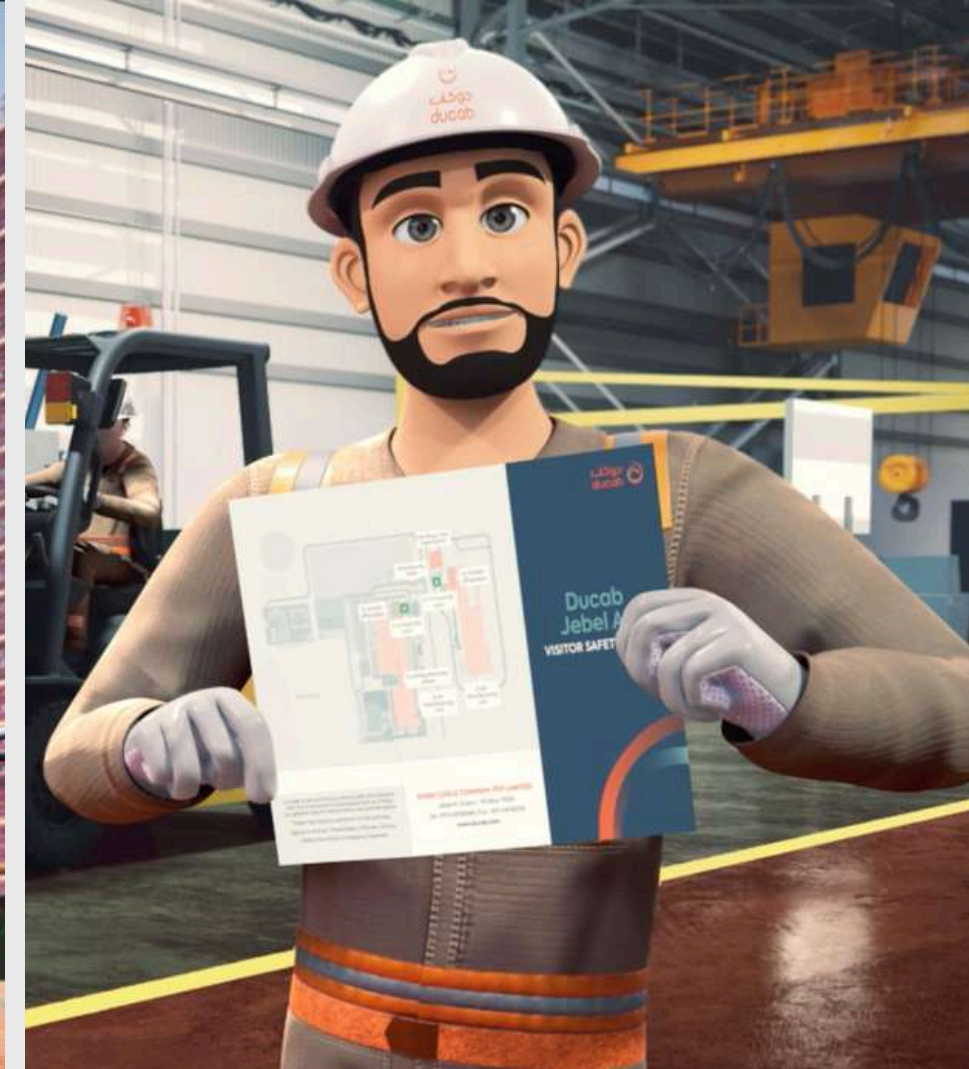

Before every heavy/critical lift, a lift plan should be prepared by a qualified competent person. The lift plan is developed in writing and made available to all parties associated with the lift.

COMPETENCY ASSESSMENT

The competence of all those involved in lifting operations must be regularly assessed. This may include:
